Lucena City, Quezon Province, Philippines — open to remote work

PROFESSIONAL SUMMARY

IT graduate with hands-on customer service and technical support experience. Skilled in handling customer inquiries, logging cases through ZOHO CRM, communicating with customers across chat and VOIP channels, and resolving basic technical issues before escalating what needs a specialist. Comfortable working independently in a home-based setup using digital collaboration tools. Looking for a remote Customer Support, Data Entry, or Service Desk role where clear communication and problem-solving make a real difference.

CORE SKILLS

Support & Productivity

- Customer Service / Client Relations
- ZOHO CRM (aftersales & inquiries)
- Respond.io (customer messaging)
- VOIP Communication Tools
- Inventory Management Tools

WORK EXPERIENCE

Counter Support Staff

Feb 2025 – Present

Abenson Ventures Inc.

- Assist walk-in customers with product inquiries, purchases, and after-sales concerns
- Log and track customer interactions and cases using ZOHO CRM
- Troubleshoot basic product/technical issues and escalate complex concerns to the right team
- Maintain accurate records of daily transactions and customer requests

Sales Call Center Agent

June 2022 – July 2023

Derive Services

- Handled inbound and outbound calls for sales and customer inquiries
- Delivered clear, professional communication under time-sensitive conditions
- Logged call details and customer information accurately for follow-up
- Worked toward performance targets in a fast-paced remote/call-center environment

EDUCATION

Bachelor of Science in Information Technology

Dalubhasaan ng Lungsod ng Lucena — Graduated July 2024

PROJECTS

Personal Expense Dashboard — Self-updating Excel dashboard tracking income and spending in pesos. Formula-driven KPIs, budget-vs-actual tracking, and charts that always report the 3 most recent months automatically.

After-Sales Case Escalation Workflow — Mapped the end-to-end case process used daily at Abenson Ventures: customer intake, CRM logging, supplier coordination, and replacement escalation.

FitQuest — Gamified fitness tracker with XP, levels, streaks, and Google sign-in cloud sync. Built with HTML, CSS, JavaScript, and Firebase.
